Publications/Directories

A Citizen's Guide to Achieving a Healthy Community, Economy & Environment

Center for Compatible Economic Development
7 East Market Street, Suite 210
Leesburg, VA 20175
Phone: (703) 779-1728

Community-Based Environmental Protection: A Catalog of Initiatives and Tools for Community-Based Programs from the Office of Prevention, Pesticides and Toxic Substances (OPPTS)

Available From: Two EPA hotlines: Toxics (202-554-1404) and Pesticides (800-858-7378)

Description: This catalogue (currently under development with planned public availability in late summer 1997) will describe tools, resources, and programs that relate to OPPTS' extensive base of information on the characteristics and effects of pesticides and industrial chemicals. It will be available in at least two formats: as a printed manual and as a resource on the Internet, linked to other EPA information sites.

EDF Letter

Environmental Defense Fund
257 Park Avenue South
New York, NY 10010
Phone: (212) 505-2100

Description: Bimonthly newsletter for members that covers a wide range of environmental issues and EDF activities in recycling, waste reduction, and environmental protection.

Environmental Planning for Small Communities - A Guide for Local Decision-Makers

U.S. Environmental Protection Agency
Document Number: EPA/625/R-94/009

Phone: Available through EPA's Office of Sustainable Ecosystems and Communities (202) 260-4002

Description: This guide provides a general process for creating and implementing a community environmental plan. A comprehensive environmental plan allows decision-makers to develop integrated approaches to protecting the environment and meeting their communities' needs. This approach will help the community prioritize solutions to environmental problems and develop a strategy for regulatory compliance.

Guide to Pollution Prevention Funding Organizations

Northwest Pollution Prevention Research Center
1218 Third Avenue #1205
Seattle, WA 98101

Phone: (206) 223-1151

Description: A directory of public and private organizations that fund pollution prevention research.

Industrial Pollution Prevention Handbook

Harry M. Freeman
Published by McGraw-Hill, Inc., 1995
ISBN 0-07-022148-0

Linking Sustainable Community Activities to Pollution Prevention: A Sourcebook

RAND
1700 Main Street
P.O. Box 2138
Santa Monica, CA 90407-2138
(310) 451-7002
ISBN 0-8330-2500-7

Making Peace with the Planet

Barry Commoner
Published by Pantheon Books, New York, 1990
ISBN 0-394-56598-3

Pollution Prevention: A Guide for Local Government

International City/County Management Association
777 North Capitol St., NE
Washington, DC 20002

Publication Number: ISBN 0-87326-073-2

Description: This publication discusses the concept of pollution prevention. It addresses how to prevent pollution prevention in both government operations and institutions, and offers guidelines for management, planning, and implementation.

Pollution Prevention: A Practical Guide for State and Local Government

Edited by: David T. Wigglesworth
Lewis Publishers, CRC Press, Inc.
2000 Corporate Blvd., NW
Boca Raton, FL 33431

Publication Number: ISBN 0-87371-654-X

Description: This publication focuses on current efforts to incorporate pollution prevention into the functions of state and local environmental agencies. It explains how to introduce pollution prevention methods into inspection programs, permitting procedures, enforcement actions, technical assistance, training, and voluntary initiatives. Topics covering the financing of pollution prevention efforts and factors contributing to their development are addressed. The book offers a wealth of practical information for state and government agency personnel, consultants, waste management personnel, and professionals in industry.

Pollution Prevention Directory

U.S. Environmental Protection Agency
401 M Street, SW
Washington, DC 20460

Document Number: EPA/742/B-94/005

Description: This directory contains brief descriptions and contacts for publicly sponsored pollution prevention resources available across the United States. The directory includes: sources for pollution prevention information for the public in each state; resources and technical assistance programs for small- and medium-sized businesses; university centers that are conducting pollution prevention research and training; selected federal agencies involved in pollution prevention; and additional resources available in the pollution prevention field.

Pollution Prevention News

U.S. Environmental Protection Agency (7409)
401 M Street, SW
Washington, DC 20460

Phone: Available through the PPIC at (202) 260-1023

Description: A free bimonthly newsletter on pollution prevention topics, including reports from EPA offices, people and places in the news, state programs, and calendar of conferences and events.

Pollution Prevention Yellow Pages

National Pollution Prevention Roundtable
218 D Street, SE
Washington, DC 20003

Phone: (202) 543-7272

Description: This directory lists and describes state and local pollution prevention programs.

Preventing Industrial Toxic Hazards: A Guide for Communities

INFORM, Inc.
120 Wall Street
New York, NY 10005

Phone: (212) 361-2400

Description: Leads community groups step-by-step through a process for encouraging local plants to reduce their use of toxic chemicals and their creation of toxic waste. By researching the plants and developing a constructive dialog with plant managers, citizens can help businesses become better, cleaner neighbors.

Preventing Pollution in Our Cities and Counties: A Compendium of Case Studies

The National Association of Counties (NACo)
440 First St., NW
Washington, DC 20001

Phone: (202) 393-6226

Description: A joint publication of the National Association of County and City Health Officials, the National Association of Counties, the National Pollution Prevention Roundtable, the Municipal Waste Management Association, and the United States Conference of Mayors, this book documents successful examples of local pollution prevention activities.

Prosperity Without Pollution: The Prevention Strategy for Industry and Consumers

Joel S. Hirschhorn and Kirsten U. Oldenburg

Published by Van Nostrand Reinhold, 1991

ISBN 0-442-00225-4

Study of Industry Motivation for Pollution Prevention

U.S. Environmental Protection Agency

Phone: (202) 260-1023

Description: To be available in Summer 1997 from the Pollution Prevention Information Clearinghouse.

Tackling Toxics in Everyday Products: A Directory of Organizations

INFORM, Inc.

120 Wall Street

New York, NY 10005

Phone: (212) 361-2400

Description: Find out where to go for the information you need on hazards in products around your house, from paint to nail polish. Information on 250 organizations in the U.S. and abroad working on problems caused by the use and disposal of consumer and building products containing toxic chemicals. Cross references by products, chemicals, health issues, and geographical location make finding the right groups easy.

Toxics Use Reduction Research Directory

Toxics Use Reduction Institute

University of Massachusetts at Lowell

Lowell, MA 01854-2881

Phone: (508) 934-3275

Fax: (508) 453-2332

Description: This guide provides background and contact information on government, private, university, and international organizations involved in toxics use reduction research.

Toxics Watch 1995

INFORM, Inc.

120 Wall Street

New York, NY 10005

Phone: (212) 361-2400

Description: Consolidates and examines data from the Toxics Release Inventory, RCRA, and numerous other sources to determine trends in the use of toxic chemicals in commerce, their presence in industrial waste, and their release to the environment. Looks at legislative developments in the field, new information on health effects, and the rise of the environmental justice movement.

National Services

Center for Hazardous Materials Research (CHMR)

University of Pittsburgh Applied Research Center
320 William Pitt Way
Pittsburgh, PA 15238

Phone: (412) 826-5321, x205 or x241

Fax: (412) 826-5552

Services: This center offers pollution prevention workshops for industrial representatives, consultants, engineering students, and regulatory personnel. Other features include on-site technical assistance, a technical assistance hotline, a quarterly newsletter, and industry-specific manuals and fact sheets.

Center for Waste Reduction Technologies (CWRT)

American Institute of Chemical Engineers
345 East 47th Street
New York, NY 10017

Phone: (212) 705-6462

Fax: (212) 752-3297

Services: CWRT is an industry-driven, non-profit organization dedicated to sponsoring and developing new and innovative waste reduction technologies and methodologies. The Center's work comprises targeted research, technology transfer, and enhanced education in a collaborative effort among industry, government, and academia.

Chicago Board of Trade (CBOT) Recyclables Exchange

141 W. Jackson Blvd.
Chicago, IL 60604-2994

Phone: (312) 341-7955

Internet: <http://www.cbot.com/recyclables>

Services: CBOT offers on-line (via the Internet) posting and trading of various grades of glass and paper as well as PET and HDPE plastics (other recyclable commodities will be added in the future); miscellaneous category available for trading other materials; offers testing, dispute resolution, and specifications for materials traded.

ClimateWise Program

U.S. Department of Energy

Phone: (303) 275-4714 or (202) 586-2097

Description: Participants are eligible for nationwide recognition for emission reduction achievements and pledge commitments. DOE and EPA help participants design and tailor a "custom fit" of Climate Change Action Plan programs for their companies and refer them to appropriate technical assistance centers to help reduce emissions still further.

Common Sense Initiative

U.S. Environmental Protection Agency (6103)

401 M St., SW
Washington, DC 20460

Phone: (202) 260-8953

Fax: (202) 260-9766

Description: For the pilot phase of this project, EPA has selected six industries and has assembled a team of senior EPA staff, coupled with representatives of industry leaders, environmental organizations, state and local governments, labor unions, and other groups. Each team is developing a blueprint based on the following six principles for pollution control and prevention: (1) a comprehensive review of every EPA rule applicable to the industry, (2) pollution prevention as a guiding principle; (3) easier reporting procedures and wider public access to environmental information; (4) strong enforcement; (5) an improved permitting process; and (6) encouragement of new technology and innovation.

Envirosense Network (E\$)

EPA Federal Facilities Enforcement Office
 U.S. Environmental Protection Agency (MC-2261)
 401 M St., SW
 Washington, DC 20460
 Phone: (202) 260-8859

Internet: <http://wastenot.inel.gov/envirosense>

Services: E\$ is a free public interagency-supported that allows regulators, industry and the public to share information regarding: P2 and innovative technology; environmental enforcement and compliance assistance; laws, executive orders, regulations, and policies; and points of contact. E\$ welcomes receipt of environmental messages, information and data from any public or private person or organization.

Green Business Resource Center

Presented by The Green Business Letter and Environmental News Network

Internet: <http://www.enn.com/green.htm>

Services: The Center, to be opened in the Spring of 1997, will be a one-stop information source for environmental managers and others in business, government, and institutions interested in learning how to integrate environmental thinking throughout their organizations. At the heart of the Center will be the Best Practices Database, which will allow users to search through hundreds of company environmental initiatives, including energy efficiency and renewables, solid waste reduction, pollution prevention/toxic reduction, and recycling and recycled procurement.

Green Lights Program

U.S. Environmental Protection Agency (6202-J)
 401 M St., SW
 Washington, DC 20460

Phone: (202) 775-6650

Fax: (202) 775-6680 or (202) 233-9659

Services: EPA promotes energy efficient lighting by asking major institutions to sign a memorandum of understanding to commit to install energy-efficient lighting in 90% of its space nationwide over a 5-year period. The program helps identify financing resources for Partners, and provides a national lighting product information program with brand name information. Partners receive a computerized directory of financial and incentive programs offered by electric utilities, lighting management companies, banks, and financing companies. Contact Regional offices or the Manager, Green Lights at the number above.

National Center for Environmental Publications and Information (NCEPI)

11029 Kenwood Road, Building 5
 Cincinnati, OH 45242

Phone: (513) 891-6561

Fax: (513) 891-6685

Services: This center focuses on scientific/technical and public-oriented environmental information. Approximately 2,500 new titles are added annually to the NCEPI system database. Services are provided to federal, state, and local agencies, businesses, civic and environmental groups, academia, and the public.

National Materials Exchange Network

Pacific Material Exchange
 1522 N Washington Street, Suite 202
 Spokane, WA 99201-2454

Phone: (509) 325-0551

Fax: (509) 325-2086

Services: The network is an electronic linking of over 40 industrial waste exchanges across North America that allows users to locate available and wanted materials. The materials, which are organized into 17 categories, include waste by-product, surplus, off-spec, over-stock, obsolete, and damaged materials.

National Technical Information Service (NTIS)

5285 Port Royal Road
Springfield, VA 22161

Phone: (703) 487-4650

Description: NTIS is the central source for the public sale of U.S. Government-sponsored research, development, and engineering reports and federally generated machine-processible data files. It contains various reports including those on: air pollution, acid rain, water pollution, marine pollution, land use planning, solar energy, solid wastes, and radiation monitoring.

Pollution Prevention Homepage

U.S. Environmental Protection Agency
Office of Pollution Prevention and Toxics

Internet: <http://www.epa.gov/opptintr/oppt2.htm>

Services: This web site contains information on EPA pollution prevention grants and initiatives. It also provides links to numerous EPA pollution prevention programs (e.g., EnviroSense and Design for the Environment). Several pollution prevention publications are also available through this web site.

Pollution Prevention Information Clearinghouse (PPIC)

U.S. Environmental Protection Agency (3404)
401 M Street, SW

Washington, DC 20460

Phone: (202) 260-1023

Fax: (202) 260-0178

E-mail: ppic@epamail.epa.gov

Services: PPIC is a distribution center for non-regulatory documents emanating from the EPA Office of Pollution Prevention and Toxics (OPPT) and various other EPA programs. PPIC also maintains a telephone hotline for document orders and to refer callers to other information resources. PPIC maintains a collection of documents relating to pollution prevention, waste minimization, and alternative technologies. The collection is available for browsing in the EPA Headquarters Library and through EPA's Online Library System.

Pollution Prevention Incentives for States (PPIS)

Office of Pollution Prevention and Toxics
U.S. Environmental Protection Agency (7409)
401 M St., SW

Washington, DC 20460

Phone: (202) 260-2237

Fax: (202) 260-0178

Services: PPIS builds and supports state pollution prevention capabilities. It funds the institutionalization of multimedia pollution prevention as an environmental management priority. PPIS grants fund other pollution prevention activities such as providing direct technical assistance to businesses, collecting and analyzing data, conducting outreach and funding demonstration projects for testing and evaluating innovative pollution prevention approaches and methodologies. States and federally-recognized tribes are eligible for awards.

33/50 Program

Office of Pollution Prevention and Toxics
U.S. Environmental Protection Agency (7408)
401 M St., SW

Washington, DC 20460

Phone: (202) 260-6907

Fax: (202) 260-2219

Services: EPA's voluntary pollution prevention program has identified 17 chemicals that participating firms agree to reduce releases by 33% in 1992 and 50% by 1995. Industries may achieve these goals through their own initiatives. Goals are measured against TRI reporting for 1988.

Toxics Release Inventory (TRI)

U.S. Environmental Protection Agency
401 M St., SW

Washington, DC 20460

Phone: (202) 260-1512

User Support: (202) 260-1531

Description: TRI is a database of toxic chemicals maintained by EPA under mandate of Section 313 of the Emergency Planning and Community Right-to-Know Act. Manufacturing facilities are required to report on releases of toxic chemicals to air, water, and land and off-site transfers. The TRI is available on CD-ROM, microfiche diskette, reports, directories, and on the Internet.

WasteWi\$e Program

Office of Solid Waste

U.S. Environmental Protection Agency (5306)

401 M St., SW

Washington, DC 20460

Phone: (800) 372-9473 or 1-800-EPAWISE

Fax: (202) 260-4196

Services: EPA's partnerships with business promote reductions in municipal solid waste. WasteWi\$e companies prevent waste at the source, collect materials for recycling, and increase the recycled content of products they buy or manufacture.

Water Alliance for Voluntary Efficiency (WAVE)

U.S. Environmental Protection Agency (4202)

401 M St., SW

Washington, DC 20460

Phone: (202) 260-7288

Fax: (202) 260-1827

Services: This voluntary partnership promotes water efficiency in commercial businesses and institutions through the use of low-flow bathroom fixtures, water-efficient laundry and kitchen equipment, efficient cooling water maintenance and water-efficient landscaping and irrigation. Information is shared among utilities, municipalities, equipment manufacturers, water service companies, and others.

Regional Services

These are only a sampling of services available across the country. Contact EPA's Regional Pollution Prevention Coordinator for more information.

EPA Region 1 (CT, MA, ME, NH, RI, VT)

Region I P2 Coordinator

Abby Swaine/Mark Mahoney
U.S. Environmental Protection Agency
JFK Federal Building, Rm 2003
Boston, MA 02203
Phone: (617) 565-4523
Fax: (617) 565-3346

Northeast Waste Management Officials' Association (NEWMOA)

129 Portland St.
Boston, MA 02114
Phone: (617) 367-8558
Fax: (617) 376-0449

Services: NEWMOA operates a clearinghouse of information on P2, conducts training sessions for state officials and industry representatives on source reduction, coordinates an interstate roundtable of state pollution prevention programs, and researches source reduction strategies. A quarterly newsletter is also published.

Toxics Use Reduction Institute

University of Massachusetts - Lowell
One University Avenue
Lowell, MA 01854
Phone: (508) 934-3275
Fax: (508) 934-3050

Services: The institute promotes reduction in the use of toxic chemicals or the generation of toxic byproducts in industry. Programs include workshops and conferences on topics such as material substitution, closed loop processes, and toxic use audits. The institute also maintains a library of toxics use reduction information as well as a surface cleaning laboratory.

EPA Region 2 (NJ, NY, Puerto Rico, Virgin Islands)

Region II P2 Coordinator

Janet Sapadin
U.S. Environmental Protection Agency
290 Broadway
New York, NY 10007
Phone: (212) 637-3584
Fax: (212) 637-5045

Center for Waste Reduction Technologies (CWRT)

American Institute of Chemical Engineers
345 East 47th Street
New York, NY 10017
Phone: (212) 705-7462
Fax: (212) 752-3297
Services: CWRT sponsors and develop new and innovative waste reduction technologies and transfers this information to industry. The Center is sponsored by major manufacturing and chemical/petroleum companies. Technology transfer activities include publications, and the development of broad, interlinked databases for identification and application of waste reduction technologies.

EPA Region 3 (DC, DE, MD, PA, VA, WV)

Region III P2 Coordinator

Jeff Burke
U.S. Environmental Protection Agency
841 Chestnut St.
Philadelphia, PA 19107
Phone: (215) 597-0765
Fax: (215) 597-7906

Center for Hazardous Materials Research

320 William Pitt Way
Pittsburgh, PA 15238
Phone: (412) 826-5320
Fax: (412) 826-5552

Great Lakes and Mid-Atlantic Hazardous Substance Research Center

Department of Civil Engineering
Howard University
Washington, DC 20059
Phone: (202) 806-6570

Services: The Center, funded by EPA, focuses on Regions III and IV. Research is conducted on hazardous substances. The Center is developing materials for a hazardous waste workshop and videotapes on waste minimization information and training.

Metro Washington Council of Governments

Department of Environmental Programs
777 North Capitol St., NE, Suite 300
Washington, DC 20002
Phone: (202) 962-3355
Fax: (202) 962-3201

Pennsylvania Technical Assistance Program

Penn State University
117 Tech Center
University Park, PA 16802
Phone: (814) 865-0427
Fax: (814) 865-5909

Services: PENNTAP is an industrial technology extension service which provides scientific and technological assistance to business and industry throughout Pennsylvania to help improve their competitiveness. PENNTAP focuses on helping small size businesses that normally do not have the in-house expertise or time to resolve specific technical questions or problems.

Solid Waste Association of North America (SWANA)

P.O. Box 7219
Silver Spring, MD 20910
Phone: (800) 677-9424 (SWAP)
Phone: (301) 585-2898 (SWANA)
Fax: (301) 589-7068

Services: SWANA operates the Solid Waste Assistance Program (SWAP) and the Peer Match Program. SWAP is a technical information hotline designed to collect and distribute materials and provide assistance to all interested parties on solid waste management. The Peer Match Program aids state and local governments by connecting knowledgeable municipal solid waste professionals with communities in need of assistance.

EPA Region 4 (AL, GA, FL, KY, MS, NC, SC, TN)

Region IV P2 Coordinator

Dan Ahern
U.S. Environmental Protection Agency
345 Courtland St., NE
Atlanta, GA 30365
Phone: (404) 347-3555
Fax: (404) 347-1043

Alabama Waste Reduction and Technology Transfer (WRATT) Foundation

Box 1010
Muscle Shoals, AL 35662
Phone: (205) 386-2807
Fax: (205) 386-2674

Services: WRATT offers free, voluntary, nonregulatory, confidential waste reduction assessments for public and private entities. WRATT runs a speakers bureau, provides waste reduction assessor training, and offers workshops and conferences on waste reduction for businesses.

Mississippi Technical Assistance Program (MISSTAP)

P.O. Box 9595

Mississippi State, MS 39762

Phone: (601) 325-8454

Fax: (601) 325-8616

Services: Monthly newsletter lists materials available and wanted.

Tennessee Valley Authority

Industrial Waste Reduction

400 West Summit Hill Drive

Knoxville, TN 37902

Phone: (423) 632-8489

Fax: (423) 632-3616

Services: The Industrial Waste Reduction team focuses on helping industries reduce waste and save money by making their industrial processes more efficient. The services include: process efficiency, in-plant evaluations, waste management consulting, and training.

Waste Reduction Resource Center

3825 Barrett Drive, Suite 104

Raleigh, NC 27609

Phone: (800) 476-8686

Fax: (919) 571-4135

Services: Helps coordinate P2 with other agencies, promotes economic development, helps deploy new technology, and provides direct assistance to reduce pollution generation and business compliance.

EPA Region 5 (IL, IN, MI, MN, OH, WI)

Region V P2 Coordinator

Cathy Allen

U.S. Environmental Protection Agency

77 W. Jackson Blvd.

Chicago, IL 60604

Phone: (312) 886-0180

Fax: (312) 886-0957

Center for Environmental and Regulatory Informa-

tion Systems (CERIS)

Purdue University

1231 Cumberland Ave., Suite A

West Lafayette, IN 47906

Phone: (317) 494-6616

Fax: (317) 494-9727

Center for Neighborhood Technology

2125 North Avenue

Chicago, IL 60647

Phone: (312) 278-4800

Services: Center provide assistance on pollution prevention, energy efficiency, waste reduction and material substitution for job-shop proprietors who need help complying with environmental regulations. A magazine, *Neighborhood Works*, is published monthly.

Illinois Hazardous Waste Research and Information Center (HWRIC)

One East Hazelwood Dr.

Champaign, IL 61820

Phone: (217) 333-8940

Fax: (217) 333-8944

Lake Michigan Federation

59 E. Van Buren, #2215

Chicago, IL 60605

Phone: (312) 939-0838

Fax: (312) 939-2708

Services: The Lake Michigan Federation is involved in many programs which focus on: promoting water quality that supports a healthy ecosystem; habitat and wetland preservation or restoration; sustainable shoreline and lake uses in the public interest; and public access to the lake and shoreline.

EPA Region 6 (AR, LA, NM, OK, TX)

Region VI P2 Coordinator

Robert Lawrence/Linda Thompson

U.S. Environmental Protection Agency

1445 Ross Ave., Suite 1200

MC 6EN-XP

Dallas, TX 75202

Phone: (214) 665-6444 or 6568

Fax: (214) 666-7466

Arkansas Industrial Development Commission

(AIDC)

1 Capitol Mall, Room 4B215

Little Rock, AR 72201

Phone: (501) 682-7325

Fax: (501) 682-2703

Services: Arkansas Manufacturing Exchange publishes a catalog bimonthly and distributes it to 3,500 manufacturers; accepts most materials; operates ScrapMatch, a market identifier for various materials.

Gulf Coast Hazardous Substance Research Center

Lamar University

P.O. Box 10613

Beaumont, TX 77710

Phone: (409) 880-8707

Fax: (409) 880-2397

Services: This consortium of eight universities conducts research to aid more effective hazardous substance response and waste management. The Center focuses on waste minimization and alternative technology development with an emphasis on the petrochemical and microelectronic industries.

EPA Region 7 (IA, KS, MO, NE)**Region VII P2 Coordinator**

Steve Wurtz

U.S. Environmental Protection Agency

726 Minnesota Ave.

Kansas City, KS 66101

Phone: (913) 551-7315

Fax: (913) 551-7065

Great Plains-Rocky Mountain Hazardous Substance Research Center

Kansas State University

101 Ward Hall

Manhattan, KS 66506

Phone: (913) 532-4313

Fax: (913) 532-5985

EPA Region 8 (CO, MT, ND, SD, UT, WY)**Region VIII P2 Coordinator**

Sharon Riegel

U.S. Environmental Protection Agency

999 18th St., Suite 500

MC 8PM-SiPO

Denver, CO 80202-2466

Phone: (303) 293-1471

Fax: (303) 391-6216

Colorado Pollution Prevention Partnership

1099 18th Street, Suite 2100

Denver, CO 80202

Phone: (303) 294-1200

Fax: (303) 294-1234

Services: A partnership of government, business, and public interest groups organized to develop and promote waste minimization and pollution prevention to industry. One project focused on voluntary reduction of solvent.

Energy and Environmental Research Center

Center of Excellence for Toxic Metal Emissions

University of North Dakota

15 North 23rd St.

University Station, Box 8213

Grand Forks, ND 58202

Phone: (701) 777-5131

Fax: (701) 777-5181

Services: The Center evaluates and characterizes the earth's resources, conducts research and develops innovative technologies to extract and use the resources in an environmentally-acceptable manner, and uses natural resources to dispose of wastes.

EPA Region 9 (AZ, CA, HI, NV)**Region IX P2 Coordinator**

Eileen Sheehan/Bill Wilson

U.S. Environmental Protection Agency

75 Hawthorne St.

San Francisco, CA 94105

Phone: (415) 744-2190

Fax: (415) 744-1796

California Department of Toxic Substances Control

400 P Street

P.O. Box 806

Sacramento, CA 95812

Phone: (916) 322-3670

Services: Implements the Hazardous Waste Reduction Grant Program, which provides grants for the research and development of hazardous waste reduction, recycling, and treatment technologies. It also maintains a Technology Clearinghouse and technology transfer outreach programs, and participates in the Paint Recycling Task Force.

EPA Region 10 (AK, ID, OR, WA)

Region X P2 Coordinator

Carolyn Gangmark/Robin Meeker

U.S. Environmental Protection Agency

1200 Sixth Ave.

Seattle, WA 98101

Phone: (206) 553-4072

Fax: (206) 553-6647

Pacific Northwest Pollution Prevention Research Center

1326 Fifth Ave., Suite 650

Seattle, WA 98101

Phone: (206) 223-1151

Fax: (206) 223-1165

Services: The Center is a public-private partnership formed to identify opportunities and overcome obstacles to pollution prevention. Activities include identifying research and project needs, facilitating transfer of pollution prevention information, and providing research support. The Center acts as a referral service and is establishing an Industrial Liaison Project to transfer the results of nonproprietary pollution prevention research from large to small companies. A bimonthly newsletter is published and the Center hosts seminars, and maintains several databases to help technical assistance programs.
